INFORMATION FOR AUTHORS

MANUSCRIPT SUBMISSION

Manuscript Submission

Submission of a manuscript implies: that the work described has not been published before; that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities - tacitly or explicitly - at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

Permissions

Authors wishing to include figures, tables, or text passages that have already been published elsewhere are required to obtain permission from the copyright owner(s) for both the print and online format and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Publication Charges

ACM does not charge any publishing fees. The authors of the accepted paper will be requested to arrange print charges from their institutions/research grant, or any other sources if they indicate in the paper the research grant. The corresponding author of the manuscript is responsible for making or arranging the payment (for instance, via the institution/projects) upon editorial acceptance of a manuscript.

APC Refund Policy

APC payments are generally non-refundable after article acceptance. Exceptions may be considered in cases of administrative error, duplicate payment, or other circumstances approved by the Publisher and Editorial Office.

Online Submission

Authors should submit their manuscripts online. Electronic submission substantially reduces the editorial processing and reviewing times and shortens overall publication times. Please follow the hyperlink “Submit” and upload all of your manuscript files following the instructions given on the screen. The papers, not meetings the Journal's requirements will not be considered.

Types of paper

In addition to presenting research papers, Applied and Computational Mathematics publishes review articles and special issues. A regular article should be 12 to 25, and a review article about 35-40 pages. Submissions longer than 25 manuscript pages will be scrutinized especially carefully to ensure the length of the paper is justified by its content.

Title Page

The title page should include:

- A concise and informative title
- The name(s) of the author(s)
- The affiliation(s) and address(es) of the author(s)
- The e-mail addresses author(s)

Abstract

Please provide an abstract of 50 to 150 words. The abstract should not contain any undefined abbreviations or unspecified references.

Keywords

Please provide 4 to 6 keywords which can be used for indexing purposes.

AMS Subject Classification

The author(s) should provide AMS Subject Classification numbers using the link http://www.ams.org/mathscinet/msc/msc2010.html

TEXT

Text Formatting

Manuscripts should be submitted in LaTeX.
The submission should include the original source (including all style files and figures) and a PDF version of the compiled output.

http://www.acmij.az/upload/file/ACM_Latex_template.zip

Headings

Please use the decimal system of headings with no more than three levels.

Abbreviations

Abbreviations should be defined at first mention and used consistently thereafter.

Footnotes

Footnotes can be used to give additional information, which may include the citation of a reference included in the reference list. They should not consist solely of a reference citation, and they should never include the bibliographic details of a reference. They should also not contain any figures or tables.
Footnotes to the text are numbered consecutively; those to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data). Footnotes to the title or the authors of the article are not given reference symbols.
Always use footnotes instead of endnotes.

Acknowledgments

Acknowledgments of people, grants, funds, etc. should be placed in a separate section before the reference list. The names of funding organizations should be written in full.

REFERENCES

Citation

Reference citations should be identified by numbers in square brackets in the text. Some examples:
1. Negotiation research spans many disciplines [3].
3. This effect has been widely studied [1-3, 7].

Reference list

The list of references should only include works that are cited in the text and that have been published or accepted for publication. Personal communications and unpublished works should only be mentioned in the text. Do not use footnotes or endnotes as a substitute for a reference list.

The entries in the list should be numbered consecutively.

- Journal article

  Başar, T. Control and game-theoretic tools for communication networks (survey), *Appl. Comput. Math.*, V.6, N.2, 2007, pp.104-125.

- Book

  Aliev, F.A., Larin, V.B. *Optimization of Linear Control Systems: Analytical Methods and Computational Algorithms*, Gordon and Breach Science Publishers, London, 1998, 280 p.

- Book chapter

  Gasimov, Y.S. Variable domain eigenvalue problems with applications to some mechanical systems. In: *Use of Risk Analysis in Computer-Aided Persuasion*, pp. 222-244, NATO Science for Peace and Security Series - E: Human and Societal Dynamics, IOS Press, Netherlands, V. 88, 2011, 327 p.

- Preprint

  Aliev, F.A., Archasoy, C.C., Asadzadeh, M., Larin, V.B., Safarova, N.A., Mammadova, G. H., Velieva, N.I. Computational algorithms for optimization problems for periodic system, Matematisca Vetenksaper, Goteborg, (ISSN 1652-9715), 16 p., 2006, http://www.math.chalmers.se/Math/Research/Preprints/2006/31.pdf .

Always use the standard abbreviation of a journal's name according to the ISSN List of Title Word Abbreviations, see

- www.issn.org/2-22661-LTWA-online.php

TABLES

- All tables are to be numbered using Arabic numerals.
- Tables should always be cited in text in consecutive numerical order.
- For each table, please supply a table caption (title) explaining the components of the table.
- Identify any previously published material by giving the original source in the form of a reference at the end of the table caption.
- Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data) and included beneath the table body.

ARTWORK AND ILLUSTRATIONS GUIDELINES

For the best quality final product, it is highly recommended that you submit all of your artwork – photographs, line drawings, etc. – in an electronic format. Your art will then be produced to the highest standards with the greatest accuracy to detail. The published work will directly reflect the quality of the artwork provided.

Electronic Figure Submission

- Supply all figures electronically.
- Indicate what graphics program was used to create the artwork.
- For vector graphics, the preferred format is EPS; for halftones, please use TIFF format. MS Office files are also acceptable.
- Vector graphics containing fonts must have the fonts embedded in the files.
- Name your figure files with "Fig" and the figure number, e.g., Fig1.eps.

Color Art

- Color art is free of charge for online publication.
- If black and white will be shown in the print version, make sure that the main information will still be visible. Many colors are not distinguishable from one another when converted to black and white. A simple way to check this is to make a xerographic copy to see if the necessary distinctions between the different colors are still apparent.
- If the figures will be printed in black and white, do not refer to color in the captions.
- Color illustrations should be submitted as RGB (8 bits per channel).

FIGURE NUMBERING

- All figures are to be numbered using Arabic numerals.
- Figures should always be cited in text in consecutive numerical order.
- Figure parts should be denoted by lowercase letters (a, b, c, etc.).
- If an appendix appears in your article and it contains one or more figures, continue the consecutive numbering of the main text. Do not number the appendix figures, "A1, A2, A3, etc."

Figure Captions

- Each figure should have a concise caption describing accurately what the figure depicts. Include the captions in the text file of the manuscript, not in the figure file.
- Figure captions begin with the term Fig., followed by the figure number.
- No punctuation is to be included after the number, nor is any punctuation to be placed at the end of the caption.
- Identify all elements found in the figure in the figure caption; and use boxes, circles, etc., as coordinate points in graphs.
- Identify previously published material by giving the original source in the form of a reference citation at the end of the figure caption.

Figure Placement and Size

- When preparing your figures, size figures to fit in the column width.
- For most journals the figures should be 39 mm, 84 mm, 129 mm, or 174 mm wide and not higher than 234 mm.
- For books and book-sized journals, the figures should be 80 mm or 122 mm wide and not higher than 198 mm.

ACCESSIBILITY

In order to give people of all abilities and disabilities access to the content of your figures, please make sure that

- All figures have descriptive captions
- Patterns are used instead of or in addition to colors for conveying information
- Any figure lettering has a contrast ratio of at least 4.5:1

COPYRIGHT TRANSFER

Authors will be asked to transfer copyright of the article to the Publisher (or grant the Publisher exclusive publication and dissemination rights). This will ensure the widest possible protection and dissemination of information under copyright laws.

PROOF READING

The purpose of the proof is to check for typesetting or conversion errors and the completeness and accuracy of the text, tables and figures. Substantial changes in content, e.g., new results, corrected values, title and authorship, are not allowed without the approval of the Editor.
After online publication, further changes can only be made in the form of an Erratum, which will be hyperlinked to the article.

OFFICIAL CITATION

The papers published in the journal must be officially cited as: **Appl. Comput. Math.**
